DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities: recitation "Lifting device" in line 1 should be --A lifting device--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Recitation "it" in lines 5, 13-14 of claim 1 renders the claim indefinite for being unclear, since it is not known what element that "it" is referred to.

Claim 1 recites the limitation "the locked lifting element" in lines 7-8. There is insufficient antecedent basis for this limitation in the claim.

Recitation "it can be put in motion" in claim 1 renders the claim indefinite for being unclear, since it is not known what element that "it" is referred to.

Claim 1 recites the limitation "the spring tension" in line 9. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the lifting direction" in line 12. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the locking action" in line 16. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

4. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. Claims 2-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
